

Vodafone Mobile Co-Location

Performance Report for the Quarter April - June 2019

Report Contents

Introduction

The aim of this report is to provide visibility to our customers on the performance for their mobile Co-location applications.

Assumptions:

- This document aims to report on Vodafones performance as an Access Provider only.
- This document aims to report on Access Seekers bound by the Mobile Co-location Standard Terms Determination and includes the RBI Co-location service.

Executive Summary

For the current quarter, all of the SLA's set out in the Mobile Co-location Standard Terms Determination were met.

Companies signed up to the RBI Co-location service:

- Spark New Zealand
- 2 Degrees Networks
- Lightwire Limited
- Araneo/Teamtalk (Now Known as Vital)
- Chorus New Zealand
- Woosh Wireless
- Taylor Communications
- Enhanced Solutions

Further Information

Exclusions:

- Proposed solution acknowledgement,
- Interference desktop study,
- Multi-site applications,
- Initial site applications,
- Site design notes

as per the Mobile Co-location Standard Terms Determination as these have not been utilised in in this financial quarter and therefore not reported on in this report.

Mobile Co-Location SLT Performance against STD
